

# Atrocity

## Jungle Rot

Flesh eating disease  
Skin melting pain  
An atrocity now to begin  
Bubbling skin, when will it end

Hold out your hand  
Pour on the chemicals  
Feel the burning  
Feel the pain

Spread on the table, torturous fools  
Draw the acid bath, go in head first  
Eyes are melting, all teeth fall out

Begging, pleading  
Please god, make it stop  
Felling the pain, till I die

There's nothing left, but death  
I try to break free from my cage  
They've got me chained down and gagged  
The drops of acid rain down  
As my mind begins to fade  
Trapped in a subliminal hell  
I will not be here for long  
I'm gonna die, like them all

Hold out your hand  
Pour on the chemicals  
Feel the burning  
Feel the pain
