

# Decapitated

**Jungle Rot**

Decapitated, but feel no pain  
Reign of terror, Hell's the name  
Will not die with no regrets  
My spirit lives, Return undead

Blood spills out from your neck  
A twisted thought, A brutal fucking set  
Blood will start to ooze  
Now I leave you scarred and bruised

Still I breathe, From severed neck  
I love to kill, I die and hate  
An evil power in a blacken night  
Without a head, Don't try to fight
