

# Fearmonger

Jungle Rot

I spew only untruth  
My tongue, a poison dart  
Spreading propaganda  
To tear you all apart

Fabricating myth, attain my goal  
Unrelenting deceit takes its toll  
Lose all trust in those you once held dear  
The end is always near... Fearmonger!

Words to incite panic  
Lies to make things right  
Separate the populace  
Unnecessary fright

Distorting the proof, exploited thought  
Influence your doubt, remain distraught  
Human rights and justice disappear  
Trust not what you hear... Fearmonger!

Two faced threats of terror  
It's only getting worse  
Economic collapse  
Forced anxiety, humanity forever cursed

Employing alternative facts  
Twist and turn the truth  
To divide and conquer  
Coerced to believe, malicious gospel of lies

Mental manipulation  
Arousing public fear  
Exaggerated rumors  
Violent atmosphere

I spew only untruth  
My tongue a poison dart  
Spreading propaganda  
To tear you all apart

Fabricating myth, attain my goal  
Unrelenting deceit takes its toll  
Lose all trust in those you once held dear  
The end is finally here... Fearmonger!
