

Maggot Infested

Jungle Rot

We are the sickness as shown long ago
A human virus out of control
Destined to destroy all that we know
Rampant reproduction, our numbers grow

Decaying matter is where we thrive
Deep into dead tissue we colonize
Sentient larvae, a morbid infection
Corpse of society is maggot infested
Maggot infested

Crawling, feeding
Growing, breeding
Crawling, feeding
Growing, breeding

Necrotic incubation
Consume the flesh
Rotting sinew and bone
What an awful mess

Immoral pathogen, a bacteria
Another parasite like fleas on a dog
A bloated carcass that's sickly and wretched
Husk of humanity is maggot infested
Maggot infested

Crawling, feeding
Growing, breeding
Crawling, feeding
Growing, breeding
