

# Send Forth Oblivion

Jungle Rot

This can't be what man envisioned  
How have we come to this?  
We've fashioned a world of gluttony  
Where good will just doesn't exist  
Through all I stand steadfast  
Striving to be a better man  
Trying to stay positive  
But success is just not in my plan

Brother vs brother  
Trust now a thing of the past  
Human nature manifests  
Societal downfall comes fast  
Egomaniacal beings  
Consuming all that we can  
Armageddon can't come sooner  
Bring forth the fall of man

Can't endure this anymore  
A selfish syndicate I've learned to deplore  
All for one, insolvent ignored  
Despondent souls  
Population brought to its knees  
Wipe clean this human disease  
Agonized by the world we live in  
Send forth oblivion

When does one just give up?  
Where do we go from here?  
Why can't we start over?  
We'd only fail again  
Drowning in our hopelessness  
Choking on your breath  
The iron chains of servitude  
Will strangle us to death

Can't endure this anymore  
A selfish syndicate I've learned to deplore  
All for one, insolvent ignored  
Despondent souls  
Population brought to its knees  
Wipe clean this human disease  
Agonized by the world we live in  
Send forth oblivion

Drowning in our hopelessness  
Choking on your breath  
The iron chains of servitude  
Will strangle us to death
