

Total Extinction

Jungle Rot

As billions of ignorant mortals
Devolve back to beast form
Tragic has been our story
Do you believe we can be saved?

Catapulting toward death
Humanity's closing breath
It just may be too late
Extinction is our fate

Empathy slowly fades away
It's every man for himself
Painful bespeaks our epilogue
I don't believe we can be saved

When all is said and done
Entire species gone
There's no one left to hate
Extinction is our fate
Fate
