

Holding On

Jungle

I could dance around for a little bit
Money in my bag just to get a hit
I left my problems on the ground, it's legitimate
So let's get down, get down
Keep me running round like a little bitch
I got no worries because I said I'm cool with it
Well if you're bored of outside, won't you come on in?
And let's get down, let's get down

I keep holding on, again and again
I keep holding on, again and again
I keep holding on, again and again
I keep holding on, again and again
(Get down)

I could dance around for a little bit
Money in my bag just to get a hit
I left my problems on the ground, it's legitimate
So let's get down, get down
Keep me running round like a little bitch
I got no worries because I said I'm cool with it
Well if you're bored of outside, won't you come on in?
And let's get down, let's get down

I keep holding on, again and again
I keep holding on, again and again
I keep holding on, again and again
I keep holding on, again and again

I keep holding on, again and again
I keep holding on, again and again
I keep holding on, again and again
I keep holding on, again and again
