

Romeo

Jungle

Never lose, steady climb
City crime infested
Ten years so divine my blessings
I injected hope into my lungs
And spoke up things I once
Thought were silly dreams
I'll walk you through the scene
Jump on a jet and it's chartered a star
I'm battling the cycle
I don't even like her
She deaded I cannot be bothered to call
Hope you see the light, darling
Oh yes, running like four legs
Them people fall
They don't want no run-ins like bow legs no
Jumped out the circus like Soleil curving
My people got me, copy, solid, sterling

Steel resolve
Look at you
You like a cube of sugar in a pool of water
Bet you will dissolve
Had so much to prove

But no wherewithal so you got
Nowhere at all no way out
Either way it's all gon' play out
It's all gon' play out

I never seen this type of glow
Look at the seed I planted grow
I think they need to add a fee
We don't wanna be the status quo
Plot twist, the pot twist
Let's talk about some progress and objectives
If you talking bout less then I'm
Came a long way, I'm a project
Baby, this a Rollie not a Timex
She climb me like an ibex and top me
I came a long way

2010 they tried to end me, glad to see the bullets off
(We still here, you missed, you bitch)
2020 Grammy nominated bet we going off
Admittedly, I know that don't make me but it make the rest of you fonder
Keep 'em all arms length like a boy bassy E Honda
Or Dhalsim, I'm flossin', I'm drippin', two commas
Trying to find the real nothing in my viewfinder
Here you find 'em

Steel resolve
Look at you
You like a cube of sugar in a pool of water
Bet you will dissolve
Had so much to prove

But no wherewithal so you got

Nowhere at all no way out
Either way it's all gon' play out
It's all gon' play out

But no wherewithal so you got
Nowhere at all no way out
Either way it's all gon' play out
It's all gon' play out
