

Here to Stay

Juniper

Walking down the road seeing the headlights pass
Wondering why life goes fast
I'm a man of sorts, why does it matter anymore?
Look at me instead of walkin' away

Cause I can see again
Now that the clouds have ran away
Now that the clouds have ran away
And it looks like to me that this feeling
Is here to stay

Take a breathe, close your eyes, hold my hand
Walk with me the world is spinning so fast
I wanna keep up but I can't do it alone

Cause I can see again
Now that the clouds have ran away
Now that the clouds have ran away
And it looks like to me that this feeling
Is here to stay
