Malibu

Juniper

The weather don't get colder
The people don't get older
Everybody's got a forecasted future

Out in Malibu
Out in Malibu

Everybody's got a good reputation (everybody)
Hard to not, when you're living in constant manipulation
It all looks better through a picture frame

Out in Malibu
Out in Malibu

I wanna know what it's like to live the little sensations
Where the sun shines so bright and you get lost in translation

For what reason
Is this my fate to go to Malibu

I wanna know what it's like to live the little sensations
Where the sun shines too bright and you got lost in translation
For what reason
Is this my fate

Is it my fate to go to Malibu
Is it my fate to go to Malibu
Is it my fate to go to Malibu
Everybody knows
How it goes
