

# Brightest Nova

Júníus Meyvant

Destination is a one way street honey  
Tucked in bidding wars  
With the road of numb desire  
Aiming higher higher

Accolades awaits  
In every triumph  
Full blown promises  
Of better ways  
Deeper meaning  
The need of being

The brightest nova, oh yeah  
Loving rover, alright  
The brightest nova, oh yeah  
Loving rover, alright

I moonwalk the clouds  
Forced upon me  
Keep 'em coming  
Day and night  
I'm on a roll  
A new beginning  
In aura of winning, winning

Hypnotize, motorize  
You lazy eyes  
See me running  
Way too late  
You want to move  
Your head is spinning  
Just in awe of seeing

The brightest nova, oh yeah  
Loving rover, alright  
Brightest nova, oh yeah  
Loving rover, alright

Hold up  
It ain't luck  
When tight up  
I man up  
Feet don't touch the ground no more  
While leaning all in

Brightest nova, oh yeah  
Loving rover, alright  
Brightest nova, oh yeah  
Loving rover, alright

Wait until the night goes dim  
You see me in all bright  
Wait until the night goes dim  
You'll see me in all might

Wait until the night goes dim  
You'll see me in all goes dim
