

High Alert

Júníus Meyvant

You got my soul on fire
You got my heart beneath your feet
You got my soul in need
Why must I know, why must I bleed?
You got the one desire
Build me up to break me down
You shook my ass out of town
So tiny man can wear my crown

You're just a soul shaker
Twisted heart breaker
You got me on my knees
Baby, please
I'm running all the time
You took my peace of mind
You got me on high alert
High alert, high alert
You got me

You got my soul on fire
You got my heart beneath you
You got the one desire
To break me down just to please you

You're just a soul shaker
Twisted heart breaker
You got me on my knees
Baby, please
I'm running all the time
You took my peace of mind
You got me on high alert, high alert
High alert, high alert
