

Punch Through The Night

Júníus Meyvant

Let me love again
Help me clean my dirty window
Punch through the night
I need a glimpse of light to get out
All jokes aside
I'm the drunk of dirty waters
Give one for my pride
I need to win a fight to go on

'Cause I'm all dried out
I got no more love to give
'Cause I'm all dried out
I got no more love to give

Put an end to the blame
Sail out of rugged waters
Pull in anchor of shame
Time to pack your bags and get out
Find a love within
Time to rise against the burden
I need a loser to win
Time to find a whole other route

'Cause I'm all dried out
I got no more love to give
'Cause I'm all dried out
I got no more love to give

I need someone to help me get through the night
I need someone to help me
Help me stand my ground and put up a fight

'Cause I'm all dried out
I got no more love to give
'Cause I'm all dried out
I got no more love to give
'Cause I'm all dried out
I got no more love to give
'Cause I'm all dried out
I got no more love to give
