

# Saturday Teenage Kick

Junkie XL

You have been living like a rot  
And you can say you've not  
But in case you forgot  
You gotta give... it your best shot

You've been bowin' on spots like metronome  
Pack rat packs 'the papers' like super gnome  
Punch the clock in situations no win  
Catch the weekdays-past and next begins  
Ambitions overrated, gets equated  
With the freedom you'll be cravin', motivated than sedated  
Feel like crackle doin' battle with the working cattle  
The same shackle tackles fellows, pains the marrow  
Commodities used once then destroyed  
To many pawns just to fill the void  
Now you hit to flex real stallion  
Blow steam shine like gold medallion  
Scandalous  
Vandalous  
Morals vanishing  
Chemicals  
Refills  
Sexkill  
Panting  
Weekday one wrecks the promise of '2001' violent
