

City Of The Sinful

Juno Reactor

Open your mind
Open your eyes
The truth is there to find
No mystery, no surprise
Playful to get wise

Stop, stop, look, look
What's going on?
They cause the problems
Then present solutions
Stop, stop, look, look
What's going on?
Is this a natural order?
Mass manipulation

Looking at this planet
Disturbs my mind
Reports I receive each day
Sends shivers down my spine
I hear talk of peace while bloodshed increase
It's a global wide Sin city

Stop, stop, look, look
What's going on?
They cause the problems
Then present solutions
Stop, stop, look, look
What's going on?
Is this a natural order?
Mass manipulation

Intimidation, manipulation, smoke screens of distraction
Hocus pocus all-seeing-eye focus
Feeding on human energy like vampire locusts

Open your eyes
The truth is there to find
No mystery, no surprise
Playful to get wise
Playful to get wise

Open your mind
The truth is there to find
No mystery, no surprise
Playful to get wise

I spy with my third eye
The same few, the same crew
With the polarization, marginalization
Access to poverty, hu-manufactured reality
There is no love only pain in Sin City
People getting high on iniquity
Pent up frustration in this global neighborhood
What's good is bad and what's bad is good
Sometimes I feel like a sheep amongst the wolves
Jungle rules - is the code of conduct
No sitting on the fence

You can't be serving two masters
Who do you represent?
The few or the masses

Open your eyes
The truth is there to find
No mystery, no surprise
Playful to get wise
Playful to get wise

Open your mind
The truth is there to find
No mystery, no surprise
Playful to get wise
Playful to get wise

Stop, look
What's going on?
They cause the problems
Then present solutions
Stop, look
What's going on?
Is this a natural order?
Mass manipulation

Stop, look
What's going on?
They cause the problems
Then present solutions
Stop, look
What's going on?
Is this a natural order?
Mass manipulation

I protect you with the truth
That's all I got
I protect you with the truth
I embrace your joys and your sorrows
I show you what I gotta show you
Embrace your joys and your sorrows
