Oh, oh  
Oh, oh  
Told myself that someday it'll be

I told myself that someday it'll be better than it is  
And I'm not there yet, but I'm closing in soon  
I told myself that someday we won't have to play pretend  
And a lot has changed, but I can't escape you

You're in my brain like every second  
I try so hard to just forget it  
But it's not that easy  
It's not that easy  
My friends and family wouldn't get it  
I tell myself I'm not dependent  
But it's not that easy  
It's not that easy

I told myself that someday it'll be better than it is  
And I'm not there yet, but I'm closing in soon  
I told myself that someday we won't have to play pretend  
And a lot has changed, but I can't escape you
