

I'm starting to realize that it's my fault (Woah, woah)  
'Cause I don't know where I woke up or what we did last night (Last night)  
She tell her mama that I'm awful (Awful)  
Heard he was talking, left his body where it won't see the light (It's 2AM)  
It's 2AM, I feel my nose sting (Fuck)  
Fuck, I heard my phone ring, I promise I'ma call you back  
Too intoxicated, keep it lowkey  
Please don't say you know me, 'cause no one ever had my back

All to say, where I've been is a mouthful (Is a mouthful)  
I can't blame, what you said, 'cause I'm awful ('Cause I'm awful)  
We're on and off like every second  
Say "I love you" and regret it  
Can't stay off the pharmaceuticals (Oh no)  
All the shit that you said is a mouthful (Is a mouthful)  
Say I'm dumb and misled, guess I'm awful (Guess I'm awful)  
You tried your hardest to forget it (I know)  
You still call me when you're stressing (I know)  
Blame it on the pharmaceuticals

I know  
That even when you're with him, you feel alone (Woah-oh-oh)  
And I wish I could help you, but it's  
Too late now, the sun's gone down  
And it's cold, it's so cold  
And when the withdrawals kick, and you feel so sick  
Well, just know you're still home (Oh)

All to say, where I've been is a mouthful (Is a mouthful)  
I can't blame, what you said, 'cause I'm awful ('Cause I'm awful)  
We're on and off like every second
