

**back off!!!**

juno

Back off, you know it ain't worth it  
I'm the one running the circus  
My words don't have any purpose  
Stop now before you get nervous  
Back off, you know it ain't worth it  
Prada on all of these purses  
Nowadays I feel like I'm worthless  
Stop now before you get nervous  
Back off, you know it ain't worth it  
I'm the one running the circus  
My words don't have any purpose  
Stop now before you get nervous  
Back off, you know it ain't worth it  
Prada on all of these purses  
Nowadays I feel like I'm worthless  
Stop now before you get nervous  
Back off, you know it ain't worth it  
I'm the one running the circus  
My words don't have any purpose  
Stop now before you get nervous  
Back off, you know it ain't worth it  
Prada on all of these purses  
Nowadays I feel like I'm worthless  
Stop now before you get nervous

Back off- back-  
Back off- back-  
Back off- b-back-  
Back off, back off, back off  
(I'm the one running the c-)

I just ran up on that boy and now he tryna run away  
I don't really give a fuck 'bout what you think or say  
Had to let some friends go, they were getting in the way  
I wish I could I make you proud, you want me to go away  
Think I ran all out of words, don't even know what to say  
I don't want you lookin at me, could you please just turn away  
I don't want the paparazzi shoving cameras in my face  
You want to be the villain but you're better in my place  
You'd look better in my place, you'd be better in my bed  
And I know I really want you, but you're better in my head  
Lotta things I wanna say, but they're just better off unsaid  
Lotta ways that this could go, but I don't know if you're my friend

Back off, you know it ain't worth it  
I'm the one running the circus  
My words don't have any purpose  
Stop now before you get nervous  
Back off, you know it ain't worth it  
Prada on all of these purses  
Nowadays I feel like I'm worthless  
Stop now before you get nervous  
Back off, you know it ain't worth it

Stop now before you get nervous  
Back off, you know it ain't worth it
