

## depend on u

juno

You used to ask me  
"If not me then who?  
Can I depend on you? Can I-"

Momma got sick, gotta pay the bills, gotta keep it handled  
God, I never ask you for a thing, just give me an answer  
Everything I do seems to make it worse, something like a cancer  
And I just needed you to tell me one thing

If it's not me then who? (Oh)  
Can I depend on you? (Oh, woah, oh)  
Would you tell me the truth if it hurts? (It can't make this much worse)  
If not me, then who? (Oh)  
Will I lose you too? (Oh, oh-oh)  
If I fail, is it what I deserve? (I can't save you with words)

Momma, how my body aches (Oh)  
Ever since I left town, do you miss me?  
Tell me, was it all a waste? (Oh)  
I've been in the city, tryna run it up  
I can't even make a play  
And my heart hurts, but the rent's paid  
And I miss home, but I just can't stay still

I'm the chief commander, top defender  
I would put my life on the line  
I remember, last December  
Telling you I'd make it right  
Burn to embers, melt together  
I don't wanna tell you how to feel alive  
I just wanted to survive

If it's not me then who? (Oh)  
Can I depend on you? (Oh, woah, oh)  
Would you tell me the truth if it hurts? (It can't make this much worse)  
If not me, then who? (Oh)  
Will I lose you too? (Oh, oh-oh)  
If I fail, is it what I deserve? (I can't save you with words)  
If it's not me then who? (Oh)  
Can I depend on you? (Oh, woah, oh)  
Would you tell me the truth if it hurts? (It can't make this much worse)

Needle in a haystack  
I would give my life up just to find it  
Are you ever coming back?  
The story isn't over, you could help me write it  
I see it, I'll be the one, a beacon  
With all my troops retreated  
I'll pick up all the pieces  
Pick up my pen, I start to write  
I craft it all as I see it  
It all went wrong, I'll make it right  
I'll be the one you believe in  
Depend on me

Depend on me
