juno

You left the lights on in your room, I'll turn them off for you  
I don't have much, but there's not much that I won't offer you  
Put me together, break my parts, I'll be a doll for you  
I'll be a doll for you

Oh, won't you take me how you want me?  
Save the rest for later  
I heard you like them sweet  
I'm tryna be your favorite flavor  
Oh, mon amour  
You're all I do it for  
The stitching at my core  
I'll be your doll, forever yours  
Forever yours

Sweet, sweet, high heat  
I want your company  
Oh, I'm so yours  
I swear I'm yours  
Sweet, sweet, high heat  
You're all I ever needed  
I'm so sure  
Never been so sure

And the preacher won't forgive me, but the church is all I have  
I'm at a loss, we fight so hard  
Cause you need everything I lack  
But I could be your toy if you would finally look my way  
I know that you won't stay (I promise it's okay)

Oh, won't you take me how you want me?  
Save the rest for later  
I heard you like them sweet  
I'm tryna be your favorite flavor  
Amor, amor  
You're all I do it for  
The stitching at my core  
I'll be your doll, forever yours  
Forever yours

Sweet, sweet, high heat  
I want your company  
Oh, I'm so yours  
I swear I'm yours  
Sweet, sweet, high heat  
You're all I ever needed  
I'm so sure  
Never been so sure
