

downhill

juno

Your words don't feel the same, and I
I feel the safest when I'm on a plane to you
Its a long way back to California but its okay
And if you ever need a map I'm always
Ten digits in your cell phone
Nine reasons that are saying I should leave you alone
I'm like eight shots deep right now but its okay
And that's exactly when I saw you in the hallway

It's all downhill from here
I think I'm turning into something that I'm really not
I'm like eight shots deep but its okay
I'm like eight shots deep but its okay
It's all downhill from here
And I'm the worst at saying sorry when I get caught
I'm like eight shots deep but its okay
I'm like eight shots deep but I'm okay

Your words don't feel the same, and I
I feel the safest when I'm on a plane to you
Its a long way back to California but its okay
And if you ever need a map I'm always

If you wanna, just let me know this
I'll be there for you, through rain and snow
And if you try to fall back
Oh I'll be there waiting
Saw you on the walk back, and thought I was crazy

It's all that I wanted
It's all that I wanted
It's all that I've wanted
It's all that you've wanted
It's all downhill from here
I think I'm turning into something that I'm really not
I'm like eight shots deep but its okay
I'm like eight shots deep but its okay

It's all downhill from here
I think I'm turning into something that I'm really not
I'm like eight shots deep but its okay
I'm like eight shots deep but its okay
It's all downhill from here
And I'm the worst at saying sorry when I get caught
I'm like eight shots deep but its okay
I'm like eight shots deep but I'm okay

Your words don't feel the same, and I
I feel the safest when I'm on a plane to you
Its a long way back to California but its okay
And if you ever need a map I'm always
