

runaway

juno

And the world keep spinning on its axis
All she wanna do is rot away
And I got caught skipping all my classes
Can't fucking wait to run away
I just don't think I belong here
My vision is not clear
Don't know what to do
If I should stay or I go
Feels like I'm logged out, running out of access
Can't fucking wait to run away

I don't remember the past week
It's slipping right past me
I've been running through backstreets
And making new friends
They tried their best to look past me
Stuck me in the backseat
They stared at me laughing
I won in the end
Cause I'm the best to ever do it
No cocky shit I'll prove it
They fake but I saw through it
Guess it's time to face the music
Take a look at what I'm doing
And let me ask you if you're doing it
Touched down in LA and then I said "I could get used to this"

And the world keep spinning on its axis
All she wanna do is rot away
And I got caught skipping all my classes
Can't fucking wait to run away
And the world keep spinning on its axis
All she wanna do is rot away
And I got caught skipping all my classes
Can't fucking wait to run away
I just don't think I belong here
My vision is not clear
Don't know what to do
If I should stay or I go
Feels like I'm logged out, running out of access
Can't fucking wait to run away
