

## scratch the surface

juno

Tell me where you went  
I can't feel my heartbeat  
I think you're the only person that would understand  
Unrequited love  
Doesn't scratch the surface  
You can't find the patience for the person that I am

I tried to change it, but it's all I know  
Do you believe me when I say that I hope  
You're happier  
Than me?

I'm trapped in last July  
No one's coming to save me  
And I think that that's alright  
I don't deserve to cry  
There's nothing in this world  
I could give you if I tried

Oh  
Breathe in, breathe out  
Am I still in your mind  
Or did I find my way out?  
Do you find time to think of ways  
It could have worked out?  
Do you still hear my voice  
Or did you forget the sound?  
I need you right now  
And I hope

I tried to change it, but it's all I know  
Do you believe me when I say that I hope  
You're happier  
Than me?
