

## temporary crush

juno

(Crush)

It'd feel like lying if I never said it once  
You were the only thing that kept me around here  
I don't expect much from a temporary crush  
But could you just indulge me for once?

Want you to lie to my face, it's really more than okay  
As long as I never know who you are  
And we could kiss, make arrangements, trade each-  
other's location  
As long as we know it's fake from the start  
All of a sudden

The pages turn back  
I know you hate that I played it like that, oh  
I never want you to think that it wasn't much  
Oh lover, you were my favorite, my favorite temporary crush

I'm tongue-tied (Crush) and it feels like (Crush)  
My whole life (Crush) was for one night (Crush)  
Like we act like we don't know (Crush) where we are (Crush)  
You could hold my hand like we're not leaving tomorrow  
I don't wanna know if I was ever the one  
It's insufferable, intolerable, the tension going on  
We can change our lives in an instant  
If it'd ended right now, would you miss it?

This night, walk the dead in a solitary style  
And crash the cemetery gates  
In the dress your husband hates

Want you to lie to my face, it's really more than okay  
As long as I never know who you are  
And we could kiss, make arrangements, trade each-  
other's location  
As long as we know it's fake from the start  
All of a sudden

The pages turn back  
I know you hate that I played it like that, oh  
I never want you to think that it wasn't much  
Oh lover, you were my favorite, my favorite temporary crush

My favorite, my favorite, my favorite temporary crush (Crush)  
My favorite, oh, my favorite, my favorite temporary crush (Crus
