

toxic

juno

You tell me I'm toxic, heard it all before
Every time you left, I know you wanted more
You're a special, different kind of insecure
Not an antidote, I'm not a fucking cure
Make it natural, I don't force
You at like every damn show on my tour
You on like every damn drug on that floor
Now I'm at every damn one of these stores

You say I'm toxic, baby
These toxins take me
They tell me I'll go crazy
Please don't mind me saying
I'm not toxic, baby
I just play pretend
'Cause we got options lately
We got rules to bend

Onto the next one
I ain't ever been the type to be an extra
And all these bitches swear to God they the baddest
They hit me up on IG for the address
She wake up at ten to do her makeup
If you want some, lil' boy, you better take some
And I ain't never really had to fucking fake none
And now we all up on your block tryna shake some
Tragic, I swear it's tragic, overdramatic
Magic, they think it's magic, she's so ecstatic
There ain't no two of me
I swear you're new to me
Let's quit the foolery
Burn this to new degrees

You tell me I'm toxic, heard it all before
Every time you left, I know you wanted more
You're a special, different kind of insecure
Not an antidote, I'm not a fucking cure
Make it natural, I don't force
You at like every damn show on my tour
You on like every damn drug on that floor
Now I'm at every damn one of these stores

You say I'm toxic, baby
These toxins take me
They tell me I'll go crazy
Please don't mind me saying
I'm not toxic, baby
I just play pretend
'Cause we got options lately
We got rules to bend
