

No Cry No More

Jupiter

When I look up the sky
I feel your sad eyes and tears fall in drops
When I close my eyes
This rain is as if your message from heaven

When the city's asleep
I will be looking for one stray sheep
When you open your eyes
I'll be with you
Forever and ever

All of the pain
This endless chain
All of it...so...in to the sea

No cry no more
The truth is I wanna holding you forever
I'm going to see you right away
Hold on...
I'll never let you down
No cry no more

Forevermore
I wanna stay by your side from the bottom of my heart
Hold on...
I'll never let you go
I'll never let you down
Forever more
So cry no more

□□...
□□□...
□□□...
□□□□...

All of the pain
This endless chain
All of it...in to the sea

No cry no more
The truth is I wanna holding you forever
I'm going to see you right away
Hold on...
I'll never let you go
I'll never let you down
No cry no more

Forevermore
I wanna stay by your side from the bottom of my heart
Hold on...
I'll never let you go
I'll never let you down
Forevermore

This eternal love
We can start at the end of time
So cry no more

Forevermore
At long last, we meet
No cry no more
