

One Sip

Jurdan Bryant

Lights flickering, speakers booming
808 set the pace for the music
Sip a little bit, just enough to get it moving
TV on, sound off show or movie

Running through some topics
Certain things are hard to acknowledge
But once written show it all for the comments
Empty out the clip and expand on the problem
Struggle with the hooks, take some time now we got it
Couple more takes now we actually got it
Put my hands to the test and let the eyes help guide me
I don't think I'm god-sent I just never stop trying
Hard headed, we never know where we gonna go, huh

Lights flickering, speakers booming
808 set the pace for the music
Sip a little bit just enough to get it moving
TV on, sound off show or movie

Man I promise Bombay lemonade and Ashwagandha
Ash on my ice cream trousers
So cold I could defrost comets
I be in sports in the comments
I don't play nowhere I'm Ben Simmons rhyming
All star every year your step gossip
Rap to me tell me where you see problems
They say they need doctors
I can heal consciousness
Seek counsel, sneak weed past bounces, ounces
Play some beanie man I want to see the plug with a outlet
Outfits, nice couches, big houses
Full of council
Having I wanted since my childhood
Ive wilded for it, had to go a different route
And I got a couple niggas that are vouch for him
From intro to outro
Yeah

Doing it to, on every scale
Played in being carried out the court to the strategy
I love it
