Yea  
I try painting on different surfaces  
Face paint body art  
Her body awesome  
Especially whenever pouring drinks involved  
Vices gripping at my belt  
She take the safety off  
Pow  
Shot through my heart  
Blood thicker than her thighs  
Low rise  
Sun shining on my wound  
Somebody call a doctor  
I might pass on  
See her angel wings  
Through what she has on  
They  
Clipping at the good ones  
Ay pray for me  
I pray for you  
Who wouldn't  
You take me to a place that no one could  
I'm thankful that you would  
She say it's dangerous  
Escape with me  
I think I should  
Everything I never knew I needed  
That was good  
I gave it up  
Save me one  
If it's not you it's here  
I'ma stay for us  
If it's not you  
It's here  
I'ma stay for us  
Stay for us

You know that I won't stop loving  
You know that I won't stop love  
You know that I won't stop loving  
You know that I won't stop love  
You know that I won't stop loving  
You know that I won't stop love  
You know that I won't stop loving  
You know that I won't stop love  
You know that I won't stop loving you  
You know that I won't...

My love for you  
Forever fearing you not seeing like  
Stevie wonder playing in the key of life  
We alike  
Know you like to act like you don't see the light  
What is love

What is life  
Fuck a fight  
Get it right  
You on my mind  
Without me trying  
Rent free  
Room for living  
Couch surfing  
Swim team  
Wetter than  
West palm beach  
See you playing  
Put it on me  
Everything  
Put it on me  
So what you saying  
What you want  
I'm tryna have you in my arms sleep  
Under palm trees  
Listening to R&B  
Jon B  
Call me  
Call me  
You know that I won't stop loving you  
All I got is love for you  
Working on me trusting you  
Don't get to comfortable

You know that I won't stop loving you  
You know that I won't...
