

Wildfire

Jurdan Bryant

You should stop the
Bull shit that you
Been on lately
You so crazy
The way that you
Listen is so, superficial
You don't even know

Start a fire burn a flower let me
Break your body down [?] higher than me
Waiting on ya' ass probably not me, yea
Feel I got it bad holla' at me, yea
Chasing occupations
Afraid you've lost your patience, evasive conversations
How long have you been waiting, I love your power baby
Down to ride don't keep the tires waiting
Gas you up to take me, as far as you can take me
As long as you can take me
Indulging you perform, that's an understatement
Piece of mind, Californication
On the 405, traffic got me spacing
Crack the sunroof, float to heaven's basement
You and I speak of revelation
Any questions asked, find the answers later
Yea, we'll find the answers later

You should stop the
Bull shit that you
Been on lately
You so crazy
The way that you
Listen is so, superficial
You don't even know

A wild fire burn a hole inside the soul
Bound to throw you through the solar, they can't hold you 'till they total
Pull the opposite of culture, so provocative emotions
Broken promises and doja
Hope your proposition hold up
Focus proper roll the weed to break the silence
Spill your thoughts and save the drama
Far from home obtaining mileage
In the distance got you wilding

You should stop the
Bull shit that you
Been on lately
You so crazy
The way that you
Listen is so, superficial
You don't even know
You don't even know
You don't even know
You don't even know
You don't even know
