

# Worth Saving

Jurdan Bryant

Tell me is you worth saving?...

Where did my mind go  
Where my friends  
Somebody help me  
See this whole world so numb  
My brothers selfish  
Who did my sis so wrong  
Wish I could reach out  
Say, hey  
Save yourself  
A bed you made your self  
Crazy  
World gone mad  
Good girl  
Gone bad  
Everyday  
Lately  
Free the ones in a cage  
Heart bump loud  
Break the pavement  
On the way  
To the stage  
What you say to me  
Could somebody help me  
When the whole world so numb  
When my brothers selfish  
Who did my sis so wrong  
I wish I could reach out

Say, hey  
It' ll be okay  
Be okay  
Be okay  
It'll be okay

Huh  
Hello where ever you are  
My energy back on ice  
A reason could tell you a few  
But really it cost your life  
Forgive me or not  
This me  
I'm coping  
Rolling dice  
Shoulder stripes  
Lonely nights  
Slow the vices  
If you call  
Running out  
See the writings on the wall  
You ask me  
Did you write in blood  
Didn't you write me off  
This is tough  
All this back and forth  
You keep it up

Ima have to ghost
