

Be Careful

Juris

Hide your tears,
Don't show your fears
And yet they say be real
Just tell them how you feel
But guard your heart
You don't want it broken apart

Let them say what they want to say
It may or may not be true
Let them say what they want to say
In the end it's all up to you

So be careful 'cause it's painful
When your heart and mind's unsure
Still they say, let your heart be open
Take a chance while you can
Be careful 'cause it's painful
Know that you'll get through it all
Still they'll say what they wanna say
Just let your heart open
Take a chance while you can

After all you've given much
And no one cared, got nothing back
You may fall but one day you'll rise
Right or wrong, in the end you'll find your way

Let them say what they want to say
It may or may not be true
Let them say what they want to say
In the end it's all up to you

So be careful 'cause it's painful
When your heart and mind's unsure
Still they say, let your heart be open
Take a chance while you can
Be careful 'cause it's painful
Know that you'll get through it all
Still they'll say what they wanna say
Just let your heart open
Take a chance while you can

Nobody's perfect, just remember
With things you can't control
Let it be and surrender

So be careful 'cause it's painful
When your heart and mind's unsure
Still they say, let your heart be open
Take a chance while you can
Be careful 'cause it's painful
Know that you'll get through it all
Still they'll say what they wanna say
Just let your heart open
Take a chance while you can

So be careful

Be careful
