

# Not Like You

Juris

Life is too short  
For dramas and lies  
Spread the love  
And unite the ties  
The world's a better place to live in  
Stop the insecurity  
The world's a better place to live in  
Stop jealousy

You're life's a such mess  
You're life's a total distress  
You can't put a good man down  
How sad life is for you  
You keep pushing people down

Calling someone fake  
Won't make you real  
Calling someone ugly  
Won't make you pretty  
Calling someone stupid  
Won't make you smart  
Oh hater, hater  
You remember that

Peace, love and happiness  
Seriously I wish you the best  
Say what you wanna say  
Cause there is someone watching over you

You're life's a such mess  
You're life's a total distress  
You can't put a good man down  
How sad life is for you  
You keep pushing people down

Calling someone fake  
Won't make you real  
Calling someone ugly  
Won't make you pretty  
Calling someone stupid  
Won't make you smart  
Oh hater, hater  
You remember that

You're life's a such mess  
You're life's a total distress  
You can't put a good man down  
At the end of the day  
When everything said and done  
I'm still not like you  
At the end of the day  
When everything said and done  
I'm still not like you

I will never be like you  
I will never be like you  
I will never be like you

I'll never be like you

Calling someone fake  
Won't make you real  
Calling someone ugly  
Won't make you pretty  
Calling someone stupid  
Won't make you smart  
Oh hater, hater

Calling someone fake  
Won't make you real  
Calling someone ugly  
Won't make you pretty  
Calling someone stupid  
Won't make you smart  
Oh hater, hater  
You remember that
