

Bad Weather II

Just Friends

I guess I'll go rot now
From the things I found out
Stick my head in the ground now
And I won't come out

Rain rain rain go away
Don't come back
The pain still stays haunting me
Forever you will haunt me

I don't know what to do now
If my life moves on
Without you

And the only time
We will meet
Is when I see you in my dreams
And you're there just holding me
Forever I will sleep for eternity
And we're there just you and me
A perfect picture of what we used to be
And I don't care if you haunt
Because that means
You'll never leave
