## Just Friends

Just clap, just clap, just clap  
It's your boy Lil B  
I know the Based God

I never had a pot to piss  
I love so much I feel like shit  
I'm not tryna curse but that's my lip  
And let's take another trip  
I rock out and I feel alright  
I party from the day to the night  
I walk away from any kind of fight  
Because I love to live my life  
3 L's that you got to stand by  
Life, Love, to Live is just fine  
Put a smile on your face, it's alright  
We got to have a good time  
If I don't live to see tomorrow  
I realize that my time is borrowed  
But today I'ma live my life  
And I'ma spit another rhyme  
Let's go

Face it, we're basic  
Chillin' with my friends, they're my favorite  
We're the only ones that we talk to now  
We're the only ones that we talk to now  
Face it, we're basic  
Chillin' with my friends, they're my favorite  
We're the only ones that we talk to now  
We're the only ones that we talk to now

Yeah, me and Lil B at the park  
Me and Lil B at the movies  
Me and Lil B on a family trip  
Like our families know each other and shit  
Me and Lil B getting coffee  
Me and Lil B on a bike  
Me and Lil B hot boxing cars on a beautiful summer's night  
Yeah, me and Lil B taking dabs  
Then I started crying, yo he's patting my back  
Yeah, me and Lil B in 8th grade  
Me and white kids dancing hard to the song he made  
Me and Lil B love astrology  
He's a Leo and I'm what he wants me to be  
Me and Lil B got plans  
To retire and live off the land

Face it, we're basic  
Chillin' with my friends, they're my favorite  
We're the only ones that we talk to now  
We're the only ones that we talk to now  
Face it, we're basic  
Chillin' with my friends, they're my favorite  
We're the only ones that we talk to now  
We're the only ones that we talk to now

Me and Sammy taking off in a spaceship

Lil B, Frank, Blake, doin' hella Bay shit  
High roads, hitting shows, make sure everybody knows  
We're going to the movies in a Subaru Crosstrek  
Then we hit the 8-6, donuts on the Bay Bridge  
Rollin' to the chicken spot in our matching Asics  
And matching bracelets, moisturize our faces  
I can read your tarot cards if you put a playlist  
I'm glad I got a friend like you  
You pick me up, when I'm feeling blue  
We may have fought, and we may have cried  
But we learned from each other, we're one of a kind  
Face it, we're basic  
But you're my best friend, you're my favorite  
We get high when life gets low  
Thank God I know you

Face it, we're basic  
Chillin' with my friends, they're my favorite  
We're the only ones that we talk to now  
We're the only ones that we talk to now  
Face it, we're basic  
Chillin' with my friends, they're my favorite  
We're the only ones that we talk to now  
We're the only ones that we talk to now
