

I thought I would end up alone
No one hitting up my phone
Call you up, leave your name at the tone
I decided to walk away
But I saw you and had something to say

I love the way that you move
All those things you say and do
The way you move is a crime
You really did it this time
Your moves they poison my mind
You really did it this time
FLEX

I just wanna dance with you baby
I wanna be all yours tonight
Can't believe I'm callin' you baby
Star shinning bright
You're lighting up my life

No one ever speaks their mind
All they do is waste my time
Someone good is hard 2 find, but I found you tonight

I love the way that you move
All those things you say and do
The way you move is a crime
You really did it this time
(You optimize: hypnotize, mesmerize, glamorize)
Your moves they poison my mind
(I swear 2 God I can't believe my eyes, c'mon)
You really did it this time
FLEX

I just wanna dance with you baby
I wanna be all yours tonight
(Show me whatchu workin' with)
Can't believe I'm callin' you baby
Star shinning bright
You're lighting up my life
