

Honey

Just Friends

You're like honey to me, way too sweet
Like honey to me, way too sweet
Like honey, baby, way too sweet

Lift me up, spin me round, by my side when the sun go down

Late nights, long drives
Make me tongue tied
Ride around town with my honey
Make me feel all sorts of funny in my tummy
Warm and sunny
You're worth millions and billions and all sorts of money
You're the ocean, I wanna drown
Lift me up, spin me round, by my side when the sun go down

Say it to me, lemme hear you say my name
It ain't gonna sound the same as all them other girls
They'll give you a taste, but I'll give you the whole damn world
Pero vente ya pa'ca, amor, no tengo el tiempo ni paciencia de esperar
te
Eres mi amante, pase lo que pase
Tienes mi cariño, brillamos como diamantes

You're like honey to me, way too sweet
Like honey to me, way too sweet
Like honey to me, way too sweet
Like honey, baby, way too sweet

Can't get enough, no
Gimme more, something bout how we just hit it off
We could tell ain't nothing really rushed
This the type of shit I needed
Somethin' that we both know on the radio
On the highway singing every note
Take the wheel when a n*lose control
With my queen, of my dreams

(It's like honey)
(It's like honey, yea)
(Yea, honey, yea)

Lift me up, spin me round, by my side when the sun go down
Lift me up, spin me round, by my side when the sun go down
Lift me up, spin me round, by my side when the sun go down
Lift me up, spin me round, by my side when the sun go down

You're like honey to me, way too sweet
Like honey to me, way too sweet
Like honey, baby, way too sweet
