

Hot

Just Friends

I'm a burnin' red hot ghost pepper
So hot, bound to change the weather
From sleek to snow, the ice, the cold
Reap what you sow, you gonna pay what you owe
I can see right through your teeth
You can't hide what's beneath
90 on the gas, I'm a devil on a path
I've been burnin' I've been movin' way too fast

Lemme tell you 'bout the shine in my chest
I'm so loud that you'll never forget

Lemme tell you how I drop this weight
Don't move you're gonna catch this fade
I'm burnin', I told you that I'm red hot
I am 'cause I is, you ain't 'cause you not
Can you see me sizzle
Watch me laugh on the day that you fizzle
You threw me to the ring of fire
I used to call you friend
Now I don't, I ain't no liar

No, no I don't wanna hear it
We're so hot and yes you can feel it
All you do is make me mad
God damn

All you do is make me mad
All you do is make me mad
All you do is make me mad
