

## Keep Up

### Just Friends

You say that they all make, make you feel  
Out of place

I don't like it when they bring you down  
I don't like it when your name is in their mouth  
I don't like it when they say it like that  
Been sayin that shit since welcome mats  
They out here duckin and hiding  
We out here livin and trying  
We bring the absolute fire, you hear me?  
Absolute fire

You say that they all make, make you feel less than great  
They try to take away, they just get in your way  
I heard what you really wanna say what  
You said that they're all dead weight okay  
Move them 2 the side, tell em  
Get out the way

Move them right out the way  
You say that they all make  
Make you feel less than great  
They tried take you away  
Fuck them cause they're all fake
