

Shine

Just Friends

I got nothin left to say
Called a ride, they on the way
I'd be lying if I said it's been nice knowing you
Fool me, shame on you
Ain't you got shit to do
I must be the biggest fool ever to believe in you

If you fuck with B, you must need some help
All this snake ass shit's real bad for your health

So quit hiding, two timing
My shine is bright, so blinding

What's the point of trusting you, when I see no trust in you
And I see B shine like a diamond
Don't even try 'cause we caught you lying

Don't even try to front or deny it
Make me tell you twice; shine, diamond

Gave me something to believe in
Then I watched you walk away, now the only thing I have to say is
Pack your things and get to leavin'
Never gonna dull my shine for somebody else

(My shine, my shine, woohoo)
Somebody else
(My shine, my shine, woohoo)
(My shine, my shine)
Nobody else

I tried to bring us closer, but you're always running away
(But you're always running away)
I thought this was forever, but you never wanted to stay
(But you never wanted to stay)
All of the time I wasted on you
Everything I gave up for you
I'm taking it back, you don't know how to act, it's true
I'm shining without you

(My shine, my shine, my shine)
So quit hidin', two timin'
What's the point of trusting you when I see no trust in you and I
So quit hidin', two timin'
Don't even try to front or deny it
Make me tell you twice; shine, diamond

Gave me something to believe in
Then I watched you walk away, now the only thing I have to say is
Pack your things and get to leaving
Never gonna dull my shine for somebody else

Because I'm shining (woohoo)
Just like a diamond (woohoo)
No, I never ever needed you (woohoo)
I hope you thought this through 'cause this one's all on you
When you call me and you tell me that you need me

No, I won't be there
