If you from the Bay make some noise
California Love all the girls and boys
Drove to Santa Cruz and I make the news
Went to the beach I feel like one of them dudes
Concord, Richmond, Oakland, Albany
Lafayette, Pittsburgh, Hayward to Berkeley
My name is Lil B, I know The Based God
I walked to Telegraph I said :Thank You Based God"

650's where I got my thizz
Already full of flavor now I taste like this
Sunny state, golden gate, that's my shit
You know it's from the bay from the way that it hits
We be grindin', and we be workin'
But when the beat drops, we keep it twerkin'
People from all over together as one
Yea, the Bay is the way, we just tryna have fun

Long live the Mac, long live the Jack
Gotta keep it positive, they Bay on our back
Unity and spread love
I walk up to Lake Merritt and give it hugs
Shouts out Daly City and San Francisco
And all the Filipinos
You can come to my place
Just Friends Crew
Yeah, we all great

Walk around the town like that
Telegraph Ave for my six A's caps
You know when they play Mac Dre
We be throwin' up Ts left field at the game
Thirty with the shot
Coke white Vans, got 'em straight out the box
JF with the funk
J-Rich with the dunk
I just want a car with some slaps in the trunk

We bring the
Bay Area around the world
