

## U & Me

### Just Friends

Baby if I say that I was wrong  
Will you come home?  
And if you say there ain't no other way  
Then I will change  
Baby if I say that I was wrong  
Will you come home?

Something that you're asking for  
Something that you're asking for  
You grabbed your coat from out the drawer  
And now you're walking out the door

Zippers, buttons, knitted garments  
Wishing well keeps getting farther  
It's getting darker  
Sun keeps settin', I'm still sweatin'  
Treadin' water, it's upsetting  
Keep on forgetting

Something that you're asking for  
Something that you're asking for  
You grabbed your coat from out the drawer  
And now you're walking out the door

Something that you're asking for  
Someone that you loved before  
You grabbed your coat from out the drawer  
And now you're walking out the door

You and me were always meant to be  
But no  
You go
