

Let's shave our heads  
And hide behind a beard  
Let's make a bad decision  
Let's get the wrong idea  
Let's start a new religion  
For all the fallen idols  
Let's get a terrible tattoo  
That's barely recognisable  
We'll lay our cards on the table  
For all the world to see  
What have we left to fear  
We are our own worst enemies  
Now let's go to church  
In a stolen car  
Overdose on love  
With a swollen heart

I know you find it so confusing  
I feel exactly the same way  
We plot a course across this minefield of dreams  
At least that's how it seems to me

Let's join a movement  
That aims to have no aims  
We just cross our fingers  
And forget our names  
Let's start a love affair  
With someone that we cannot stand  
Let's mess with fates temptation  
Let's bite the feeding hand  
We'll leave the planet below  
Spinning like a catherine wheel  
In a rusty space shuttle  
With a thousand frozen meals  
Now let's go to church  
In a burning vehicle  
'Cos even if it hurts  
Doesn't mean it isn't a miracle

I know you find it so confusing  
I feel exactly the same way  
We plot a course across this minefield of dreams  
At least that's how it seems to me
