

Change

Justifide

Wake up my friends
Don't you see what is happening
To all of the people that are suffering
Well do you see it now

And if we don't change
We're all going down
If we don't do anything
God help us now

People turn their backs to those in need
For no reason but their selfish greed
Well do you see it now

If you think the world's alright
Take a look inside yourself
And see what you might find
Try to see the future through
Your children's eyes, eyes
