

# Choosin

Justin Bieber

Yeah yeah...

Choosin  
Say you're choosin babe  
Choosin  
Say you're choosin babe  
Choosin  
Say you're choosin babe  
All eyes on me when I walk through  
Choosin  
Waiting near  
Choosin  
On me  
Choosin  
All eyes on me when I walk through

Desperation, human nature  
Seen you watching  
We've been undressing each other  
And I don't mind (choosin)  
So I don't mind (choosin)  
Gotta speak my mind (choosin)  
Choose up one time  
All eyes on me when I walk through

Choos-choosin...

How can I help if you're good at not keeping her attention  
She walked and she been in a mission  
After nothing but damn right intentions (somebody)  
I ain't see nothing but diamonds  
They talking, she listening  
Screaming and laugh from a distance  
Don't be shy does she coming or missing  
Don't doubt it

Be wise by who you calling your own  
'Cause you might be left alone, that's right  
This star's so bright, she can not put too far though  
She get it back tomorrow

Now she's  
Choosin  
Say you're choosin babe  
Choosin  
Say you're choosin babe  
Choosin  
Say you're choosin babe  
All eyes on me when I walk through  
Choosin  
Waiting near  
Choosin  
On me  
Choosin  
All eyes on me when I walk through

Desperation, human nature

Seen you watching  
We've been undressing each other  
And I don't mind (choosin)  
So I don't mind (choosin)  
Gotta speak my mind (choosin)  
Choose up one time  
All eyes on me when I walk through

Choos-choosin

When I look in your eyes  
I can tell that you wanna be (tell that you wanna be)  
'Cause she's making the way so she can be right in front of me (be right in front of me)  
Don't pretend in the end you gave your number to my friend  
So don't you bring your friends come to the topfloor to the penthouse girl

Desperation, human nature  
Seen you watching  
We've been undressing each other  
And I don't mind (choosin)  
So I don't mind (choosin)  
Gotta speak my mind (choosin)  
Choose up one time  
All eyes on me when I walk through

Choos-choosin...
