

## FIRST PLACE

Justin Bieber

How did we get back again?  
How'd we get mixed up in the first place?  
The window's openin'  
You can't spread your wings in a bird cage

We get high and we go down again (Ooh, we go down again)  
We go 'round and right back where we been  
Please go by, the nights, they never been  
Do it all again (Do it all again), mmm

'Cause when it's on sight, it's on sight, all of it, all of it  
Can't wait, it's a celebration like it's a birthday (It's a birthday)  
So amazin', I just wanna taste it  
Let's celebrate in the best way like it's your birthday

Oh (All I see is you now, all I see is you now), in the first place  
Oh (Don't wanna lose you now), and that's the worst case  
Oh, yeah (Birthday, birthday, birthday)  
Oh, yeah, oh, yeah (It's your birthday, birthday), in the first place

Where do I begin? (Oh)  
Been this way for a long, long time, oh  
Something's got to give (Something gotta, something gotta give)  
'Cause you keep on tickin' on my mind

We get high and we go down again (We go high, we go high)  
We go 'round and right back where we been (Right where we been)  
Please go by, the nights, they never been (The nights, they never been)  
Do it all again, do it all again, mmm

'Cause when it's on sight, it's on sight, all of it, all of it  
Can't wait, it's a celebration like it's your birthday (It's your birthday)  
So amazin', I just wanna taste it  
Let's celebrate in the best way like it's a birthday

Oh (All I see is you now, all I see is you), in the first place  
Oh (Don't wanna lose you now), don't wanna, don't wanna, that's the worst case (And that's the worst case)  
Like it's your birthday, birthday, birthday, babe  
Like it's your birthday, birthday (Oh, in the first place)
