Hold Tight

Justin Bieber

Dm Em E F G Em

```
                Dm    Em E
R: They hold on tight
                  F         G Em
   Yeah, they hold on tight
                  Dm       Em E
   Ooh, they hold on tight
                   F        G Em
   Them lips won't let me go
   (Lips won't let me go, lips won't let me go, oh) (2x)

                    Dm            Em E
1. Don't let this go to your head
                   F                   G Em
   But you're the best, I've ever had
           Dm
   Not to mention
   Em             E
   That thing is swollen
       F                  G Em
   You got me oh so in a trance
                  Dm                        Em E
   Something like a ziploc, but a lip lock
                    F                          G Em
   Want you wrapped around me like a wrist watch
          Dm              Em E
   Oh, so hard walking out
               F                 G Em
   Got me stuck like crazy glue, ooh

R: They hold on tight... (2x)

2. Got me tossing, turning into bed
   Your place is where I'd rather be instead
   You don't know your strength
   Missing you is like adrenaline
   Oh, when you got me in a gridlock
   What a great spot
   Yeah, that turned up kind of love and it just won't stop
   No, so hard walking out
   Got me stuck like crazy glue, ooh babe

R: They hold on tight... (2x)

3. Holding back the faces I would make
   I'm a fan and you're the rock star
   Making it hard on me
   Visualize a monster
   'Cause you're too bad for me
   Shot that arrow, I'm hit
   Need you right near me
   Trying to maintain, so don't mind if I turn away (no, no)
   I try to maintain, so don't mind if I turn away

R: They hold on tight... (2x)
