

# I Do

Justin Bieber

Oh, oh

I need you in the mornin'  
You know that's right (You know that's right)  
I need you in the afternoon and every night  
You know I do (You know)  
Yeah, you know, yeah, you know, yeah, you know, yeah, you know without lovin  
,

I can't do without  
I can't numb the way that I feel, oh-oh  
None of that dress, oh, none of them heels, oh-woah  
Woah, oh-oh  
Never loved you more than I do right now

All these feelings just wash away, my baby  
It's not complicated  
Those feelings won't fade away, away (Oh-oh)

I do, I mean it when I said that I do  
Nobody gets to touch you, I do  
You will always be the one that I choose  
I know you love the things that I do (Do, yeah, I do)  
I mean it when I say that I do (I mean it)  
Nobody gets to touch you, I do (Nobody, no)  
You will always be the one I that I choose (Always be the one I choose, oh)

I just wanna say  
If something's going down, yeah  
Let's communicate it now, ooh  
You can make it okay, ooh-ooh  
Little love can go the longest way (Little love, little love, little love)  
Oh, babe, let's call in sick, let's take the day (Take the day)  
Just make a promise, girl, you'll never change (Oh, never change)  
Hurry up, get over here, don't make me wait

All these feelings just wash away, my baby (All these feelings)  
It's not complicated (All my)  
Those feelings (All my) won't fade away, away

I do, I mean it when I said that I do (I do)  
Nobody gets to touch you, I do (Oh)  
You will always be the one that I choose (Oh)  
I know you love the things that I do (Do, I do)  
I mean it when I say that I do (I mean it, oh)  
Nobody gets to touch you, I do (Nobody, no)  
You will always be the one I that I choose (Always be the one I choose, oh)

Pull you close like this  
Two hands on your hips  
Red shade on your lips  
Got it all on my skin
