

# Intertwine

Justin Bieber

What's the use of being lonely?  
When I'm offering my company  
You could be my lover, hold me  
I'll give you attention all night, all day  
Intertwine, we can intertwine  
We can intertwine, we can intertwine  
Oh yeah

Had the whole hood shook when you moved in  
Face like a goddess, body on ten  
Had to be back in the crib before the streets lights  
That was back when you wasn't allowed to have friends  
Now you grown up features all swole up  
Seen you at the club had me like hold up  
What you doing', who you with, what you sippin' on? (sipping on)  
Who you doing, where you being, let me take you home  
And if you hungry we can stop at the Waffle House  
I'm on that shit it's whatever what you talking 'bout  
Take that time to get to know me  
Cause baby what's the use of being lonely?

What's the use of being lonely?  
When I'm offering my company  
You could be my lover, hold me  
I'll give you attention all night, all day  
Intertwine, we can intertwine  
We should make some time  
So I could intertwine, with you

We could intertwine, just let me get behind  
And watch me run up in that thang like the finish line  
To end it like it's Christmas time  
I eat it like it's dinner time  
She said let's do it like at 86  
I said let's do it like 69  
Give her a bit a this it ain't no way she getting tired  
Introduced to the molly now she's amp'd and she's wired  
Get her back to the room she said Twizzy is who I desire  
I said let's get in the shower girl that ass is on fire  
I pay you with attention direct a positive wire  
That shit don't need even matter as long as love transpires  
And after all that, baby you should really know me  
Now you ain't got never be lonely

What's the use of being lonely?  
When I'm offering my company  
You could be my lover, hold me  
I'll give you attention all night, all day  
Intertwine, we can intertwine  
We should make some time  
So I could intertwine, with you

Tell me do you really want it?  
Wake up in the morning  
Right next to me baby, right next to me baby

What's the use of being lonely?

When I'm offering my company  
You could be my lover, hold me  
I'll give you attention all night, all day  
Intertwine, we can intertwine  
We can intertwine, we can intertwine  
Oh yeah
