

# Mi Amor

Justin Bieber

Travelled all across the world,  
Seen a lot of fancy things,  
But I never seen a beauty quite like this, (no)  
This must be a dream!  
So I pinch myself ouch, it hurts man,  
Well I guess this must be real  
So I'm gonna cease the moment  
And tell her how I feel.

Let me take you to Chile or Costa Rica,  
Puerto Rico or Colombia,  
We can dance under the sky,  
Use the moon as our spotlight.  
Two step with the right man,  
I can teach you how to dougie in the white sand,  
Just take a chance and runaway,  
Won't you listen when I say?

Will you be mi amor?  
Just what I'm looking for,  
Don't be afraid to fly  
Across the sky!  
So let's go, let's go  
Baby you can let the rest know, rest know  
Yup yup, girl, let's go, let's go  
Baby you can let the rest know  
That you are mi amor

I got fans from coast to coast  
They show love everywhere I stay  
Everybody yell hola when the shows over  
Still wanna see your face  
Baby I need bonita, numero uno chica  
Sing to you acapella, let's fly away

Let me take you to Chile or Costa Rica  
Puerto Rico or Colombia

Use the moon as our spotlight
