

Moving Fast

Justin Bieber

I was speeding towards the wall, I was twenty-five
Closed eyes, looking for a light
Hundred miles riding
Got too close to the fire, should've came with a warning sign
I guess you get red, uh
Running from it all, turn away from another memory
Seen it all ending
Sick of speeding though
Thinking you could make a better man of me
Bet it all, now

Now I roll the windows down and I'm slowing it down for you
Now I roll the windows down and I'm slowing it down for you
Now I roll the windows down and I'm slowing it down for you
Now I roll the windows down and I'm slowing it down for you, yo
u, you

Uh
Just two hundred on the dash, I was moving too, moving too fast
You know I was, uh
It was you and me since day one, day one, day one
Ooh, ooh, ooh, ah, ah

Now I roll the windows down and I'm slowing it down for you
Now I roll the windows down and I'm slowing it down for you
Now I roll the windows down and I'm slowing it down for you
Now I roll the windows down and I'm slowing it down for you, yo
u, you
